admitted as substantive evidence, precede any motive to fabricate or improper influence that it is offered to rebut. United States v. Allison, 49 M.J. 54 (C.A.A.F. 1998). Where multiple motives to fabricate or multiple improper influences are asserted, the statement need not precede all such motives or inferences, but only the one it is offered to rebut. United States v. Faison, 49 M.J. 59 (C.A.A.F. 1998). This interpretation of the rule is consistent with the Supreme Court’s decision in Tome v. United States, 513 U.S. 158 (C.M.A. 1994).

Insert the following Analysis for M.R.E. 807:

"MRE 807 was adopted on 30 May 1998 without change from the Federal Rule and represents the residual exception to the hearsay rule formerly contained in MRE 803(24) and MRE 804(b)(5)."

"The Rule strikes a balance between the general policy behind the Rules of Evidence permitting admission of probative and reliable evidence and the congressional intent that ‘that the residual hearsay exceptions will be used very rarely, and only in exceptional circumstances.’ S. Rep. No. 1277, 93d Cong., 2d Sess., reprinted in 1974 U.S. Code Cong. & Admin. News 7051, 7066. MRE 807 represents the acceptance of the so-called ‘catch-all’ or ‘residual’ exception to the hearsay rule. Because of the Constitutional concerns associated with hearsay statements, the courts have placed specific foundational requirements in order for residual hearsay to be admitted. See United States v. Haner, 49 M.J. 72 (C.A.A.F. 1998). These requirements are: necessity, materiality, reliability, and notice.

In order to fulfill the reliability condition, the proponent of the statement must demonstrate that the statement has particularized guarantees of trustworthiness as shown from the totality of the circumstances. Idaho v. Wright, 497 U.S. 805 (1990). The factors surrounding the taking of the statement and corroboration by other evidence should be examined to test the statement for trustworthiness. The Court of Appeals for the Armed Forces has held that the Supreme Court’s prohibition against bolstering the indicia of reliability under a Sixth Amendment analysis does not apply to a residual hearsay analysis. Therefore, in addition to evidence of the circumstances surrounding the taking of the statement, extrinsic evidence can be considered. United States v. McGrath, 39 M.J. 158 (C.M.A. 1994)."
